Intergenerational Hand Puppet Workshop

This is a 10-week workshop designed for grandparents and their grandkids to meet online and develop a short story to be acted out with hand puppets made by participants during class sessions. All puppet skits will be taped and edited by Maureen McGarry to be shared with families.

Storybook Workshop

This ten-week workshop is a series of meetings with presentations about children's books, information about self-publishing, and a video/audio book produced by Maureen McGarry for each participant. Each participant will write a ten-page story and illustrate it. Each participant will be recorded narrating their story, and will receive a video file of their book.
